PROFESSIONAL EXPERIENCE

Freelance Full-Stack & Mobile Developer **Jun 2024 – Present**
Self-employed | Remote

- Built and delivered cross-platform mobile apps and responsive web apps for clients.
- Developed cloud backends: authentication, file storage, notifications and admin dashboards.
- Implemented real-time features and QR-based check-in flows in production apps.
- Kept codebases clean and maintainable with structured state management.

Software Development Intern **Jan 2024 – Jun 2024**
EURL Matrix Software Development | Algiers

- Contributed to an Android parcel-delivery application.
- Developed logistics management and route-optimisation features.

SELECTED PROJECTS

KAMIR GYM – Gym Management App Flutter, Firebase
QR check-ins, progress tracking, notifications, in-app store and admin dashboard.

Golden Goal – Football App Flutter
Live scores, timelines, league tables and video highlights.

Meshaal El Chabab – Community Platform Web, WebSockets
Events, sign-ups, news, galleries and real-time updates.

Maktabat Al-I'tissam – Digital Library Mobile
Educational resources by category; launched with a student-community campaign.

Cooper's Restaurant – Digital Menu HTML, CSS, JavaScript
Mobile-friendly menu with search and interactive food previews.
